

Overall - Question #	Document	Section	Topic	Request for Clarification	Date Received	Response Published Date	KDOT Response
1	RFQ	4.2	Independent Cost Estimator	Who will be the Independent Cost Estimator?	9/1/2022	9/15/2022	See response to RFC #2.
2	RFQ	4.2	Independent Cost Estimator	Will KDOT have selected an ICE before the SOQ submittal date? If not, can we assume no member of the selected estimator is part of any team?	9/2/2022	9/15/2022	An ICE will not be selected prior to the SOQ submittal date. The selected ICE will not be allowed to participate on a Proposer team. Any firm that is part of a Respondent team, including Subcontractors, will not be allowed to propose on the ICE procurement.
3	RFQ	4.4	KDOT Prequalification	Which classifications of work must a submitter be prequalified for at the time of submitting a proposal. Can subcontractors or subconsultants be added to the team after selection to fill needed prequalification categories?	9/2/2022	9/15/2022	Refer to RFQ Article 4.4 (KDOT Pre-Qualification) which has been modified to identify the classifications of work for which the Lead Contractor must be prequalified prior to the Proposal Due Date. The Lead Designer and Key Personnel Firm must be prequalified prior to the Proposal Due Date in all of the classifications of work for which they intend to perform under the Contract. Subcontractors (which includes subcontractors performing construction work and subconsultants performing professional services) may be added to the team after selection pursuant to the Contract. See draft Contract, Article 5 (Subcontracting Requirements). The Contract requires any Person employed by the Progressive Design-Builder or any Subcontractor to have the skill, experience, and any license or certifications required to perform the Work assigned to the Person. See Draft Contract, Article 6.1 (Employee Performance Requirements). The Contract does not require Subcontractors added to the team after selection to be Pre-Qualified; therefore, Subcontractors added to the team after selection are not necessary to fill needed prequalification categories.
4	RFQ	5.1	Submittal Format	Should the SOQ submittal be sent electronically to the Project Email? Or is another delivery method preferred?	9/2/2022	9/15/2022	Refer to Section 5.1 of the RFQ for filename and format guidelines. "SOQs shall be submitted to the Project Document Management System." Instructions for DMS use will be provided by KDOT following receipt of Form K.
